MATTHEW 25 AIDS SERVICES

*The provider network may change at any time. You will receive notice when necessary. A doctor listed in the directory when you enroll in a plan may not be available when your benefits become effective. Not all plans offered in the same area have the same provider network. Please note, before scheduling an appointment or receiving services, confirm the plan(s) that are supported by the directory you choose to view, check with your provider and your plan to confirm the provider is participating, that the service is covered, and the costs that you may be charged for the service.

If you would like a provider directory mailed to you, please call the customer service number listed on the back of your member ID card. You can also print a directory from your online search results. If you believe you are experiencing a medical emergency, call 911.

Out-of-network/non-contracted providers are under no obligation to treat UnitedHealthcare members, except in emergency situations. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call our customer service number or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services.

UnitedHealthcare protocol prefers this Network Provider to use other network providers. There may be circumstances when this provider may engage out-of-network providers to perform services related to this Network Provider's treatment. Members with a UnitedHealthcare Group Medicare Advantage (PPO) non-differential plan receive the same coverage in and out of network when the out-of-network provider accepts Medicare.

Providers are prohibited from discriminating against any member, with regard to quality of service or accessibility of services, on the basis of race, ethnicity, national origin, religion, sex, age, mental or physical disability or medical condition, sexual orientation, claims experience, medical history, evidence of insurability, disability, genetic information, or source of payment.

The network of providers, facilities and medical groups is always changing. Before making an appointment, please check that the provider, facility, or medical group is in your network.
